

Corporate Support Opportunities

March 14, 2020

Center for the Future of Surgery, UCSD | La Jolla, California

Sponsorship

Full Course Sponsor

\$20,000

Four (4) Representatives

\$10,000

Two (2) Representatives

\$5,000

One (1) Representative

Opportunity includes complete access for designated number of representatives to attend the meeting as fully registered attendees, with the opportunity to participate in the dynamic discussions, hands-on components, as well as attend all networking events. Sponsorship also includes recognition on course materials, communications, onsite signage, and on the website.

Lunch Symposia Sponsor - \$5,000

Promote your new innovations and share expertise on your products and services. Opportunity includes a 30-minute session on Friday afternoon before the hands-on sessions begin. Cost includes room, standard A/V, recognition on course materials, communications, onsite signage, and on the website. One (1) session available.

Beverage Break Sponsor - \$2,500

Opportunity includes recognition on course materials, communications, onsite signage, and on the website. Also includes the ability to provide logo cups/napkins/etc. Three (3) Breaks available.

Educational Grants

General Course Grant - \$15,000

The course directors go to great lengths to provide the most relevant and up-to-date content for this meeting. Help show your commitment to providing quality education with a course grant. Grant will be recognized in onsite signage and course materials.

Advertise

Registration Bag - \$3,000

Put your company logo and product information in the hand of every course attendee. Your company selects and produces the bag of your choice, and can insert up to one promotional/product literature piece per bag given to all attendees as they register onsite. All items subject to CNS approval. Options available for CNS to handle production at additional cost.

Registration Insert - \$1,000

Provided to all attendees at registration, this is the perfect opportunity to preview your products, and gain information about your company. Maximum size of piece is 8.5"x11", double-sided.

Meter board - \$1,500

Opportunity for a custom sign to be placed in the foyer. Cost includes production, labor to install and dismantle. Limited opportunities available.

General Information

Course Overview & Agenda

Emerging advancements in stereotaxy, surgical visualization, and ablation/aspiration technologies have dramatically expanded the neurosurgical procedural armamentarium. Designed for general neurosurgeons with an interest in minimally invasive cranial surgery, this destination course provides hands-on training with the latest technologies for:

- ◆ Endoscopic evacuation of intracerebral hemorrhage (ICH)
- ◆ Neuronavigation, tractography, and subcortical surgery
- ◆ Use of exoscopes in cortical surgery
- ◆ LiTT (laser interstitial thermal therapy) in oncology and epilepsy

The Minimally Invasive Cranial Course is a great opportunity to get up-to-date on these advancements through technical lectures, case-based discussions, patient selection, and cadaver dissections.

Industry Allies Council

Participation in any of the above opportunities will go towards year-round support of the Congress of Neurological Surgeons and will contribute to your overall Industry Allies Council Level, which provides additional recognition and benefits throughout the year.
